

WE'RE TAKING ON THE VERY BEST AND THE VERY WORST...

Risk Manager • SOCA Grade 3 • Central London
£39,309 + £3,100 London Weighting

Drug trafficking? People smuggling? Money laundering? Whatever their business, organised criminals cost the UK some £40 billion every year. By keeping ahead of the criminals, the Serious Organised Crime Agency (SOCA) will disrupt and destroy their complex networks and make the UK the most difficult place for them to operate.

An exciting opportunity has arisen within the corporate assurance department for a risk manager. In this role, you will develop, manage and embed a robust organisation wide risk management framework, in a manner that supports the good governance of SOCA and contributes to the Accounting Officers ability to sign off SOCA's annual statement on internal control.

You will have a nationally or internationally recognised risk management or related qualification. You will have proven experience of continuing professional development, including a good up-to-date knowledge of best practice across the full range of risk management and associated activities.

If you think that you have something to offer SOCA in this area that will contribute to the fight against serious and organised crime throughout the UK, please visit our website www.soca.gov.uk for further information on this post and details on how to apply.

Closing Date for applications: 12 noon on 15th September 2008.

All successful applicants will need to achieve DV security clearance.

SOCA is totally committed to the principles of equality and diversity and we welcome applications from all sections of the community. All appointments will be made on merit and flexible working options will be considered.
